

Experience freedom and convenience with a Freedom Hydrotherapy Pool

MAKING MOBILITY MATTER

**MOBILITY
POOL
CO.**

Welcome to a new era of independence and comfort with the Freedom Hydrotherapy Pool in your own backyard

Designed specifically for those who seek relief from muscular pain and mobility challenges

ACCESSIBILITY - Dual handrail support with staircase entry. Optional pool hoist allows user to access pool without any manual lifting.

MAGNESIUM SALT FILTRATION - Experience the skin soothing properties of magnesium mineral crystals. No unpleasant chemical smell with skin moisturising affect as you exercise.

THERMAL CONTROL - Adjust water temperature to suit type of therapeutic practice. Warm water immersion promotes blood flow, relaxes muscle tension and enables exercise with less pressure on the joints.

FUNCTIONAL HYDRO-MOTION - The hydrostatic effect of water ideally places a resistive force for all functional movement activities. Combined with pool aids and hydro jets it serves as an optimal space to improve your mobility

THERAPEUTIC JETS - As mobility and function improves, hydro jets can be positioned to add overload resistance to your regular exercise program. Walking against or across the jet stream challenges and improves muscles that help stabilise.

THERMAL CONTROL

Adjustable water temp to suit therapeutic needs.

FILTRATION SYSTEM

Magnesium based mineral chlorinator.
NO chlorinated smell. NO knotting of hair. NO dryness of skin.

HOME CONVENIENCE

Mobility Pool installed at home.
Truely a place to work, rest and play.

Health benefits of the Freedom Hydrotherapy Pool

Specialty sized steps for easy entry and exit

- Designed for safety and accessibility
- Facilitates smooth and effortless entry and exit

Special size-specific entry rails for comfortable grip and stability

- Provides enhanced grip and support for added safety

Hydrotherapy jets to increase resistance

- Resistance jets engineered to deliver adjustable resistance levels
- Ideal for therapeutic exercises and enhancing muscle strength

Lighting for use day or night

- Integrated pool lighting system
- Enables safe and enjoyable use, regardless of the time

Temperature control for year-round Use

- Equipped with a sophisticated temperature control system
- Maintains optimal water temperature for comfort in all seasons

Pool Dimensions:

INSIDE: 4500 x 3000mm

OUTSIDE: 4910 x 3410mm

Freedom Pools has been at the forefront of quality fibreglass manufacturing for the past 50 years. Since our inception, we have dedicated ourselves to crafting durable and aesthetically pleasing products, using cutting-edge technology and materials. Our commitment to excellence and innovation has made us a trusted name in the industry, consistently delivering products that enhance the quality of our customers lives.

We are here to make your mobility matter

Are you ready to embrace a life of enhanced mobility and comfort?

Contact us today to learn more about the Freedom Hydrotherapy Pool. Whether you're seeking relief from pain, looking to improve your mobility, or simply wishing for a relaxing therapeutic experience at home, we are here to help. Visit freedompools.com or call us today.

Don't forget to inquire about potential NDIS funding opportunities and how we can assist you in this process. At Freedom Pools, we're not just selling a product, we're offering a pathway to a better quality of life. Join us in this movement and make mobility matter in your life.

Tracy Heydon - Stroke Patient - Her Story...

In late 2016 Tracey had a stroke which resulted in a right side hemiplegia. As a consequence Tracey used a wheelchair for most of her mobility and had gained approximately 20kg. Tracey commenced hydrotherapy treatment with a physiotherapist at a public pool facility and was beginning to show good improvements in her mobility and upper limb function. However, a conventional public pool setting had some limitations and began to impact Tracey's desire to continue within the public and group setting.

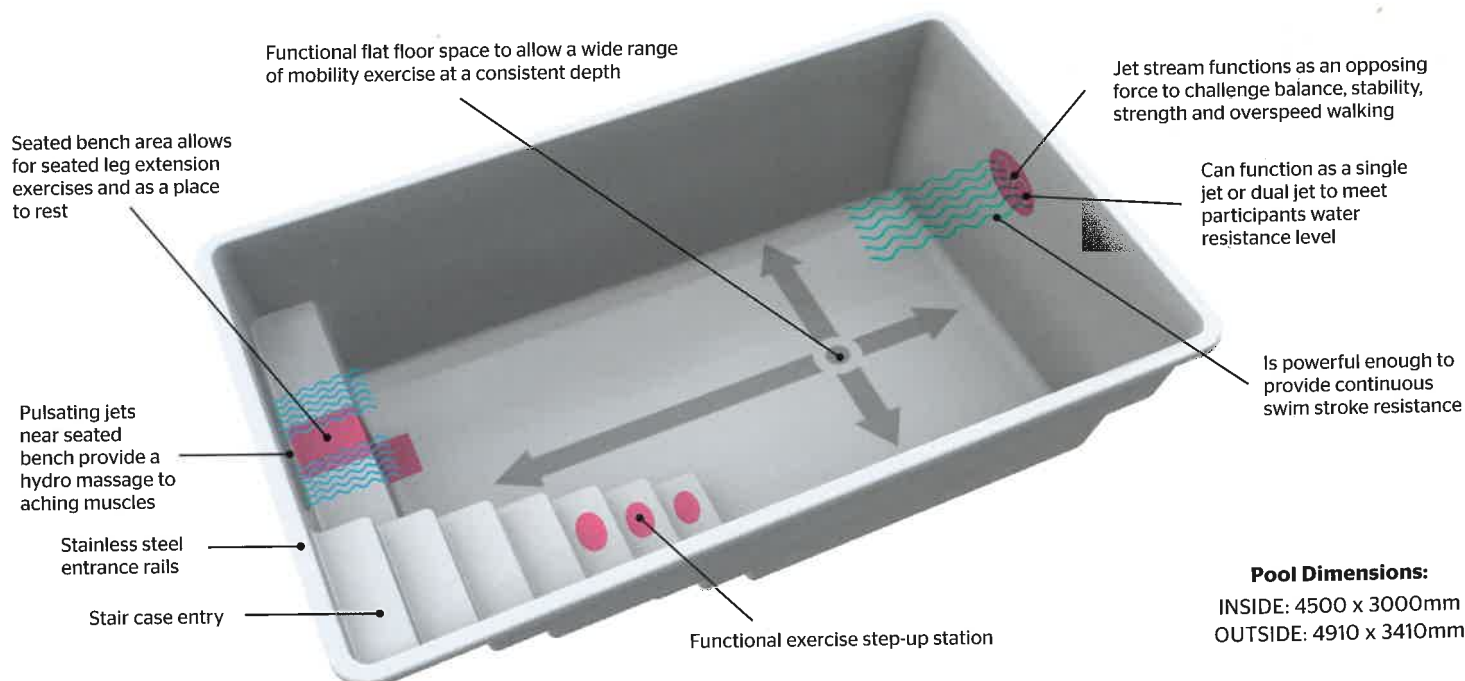

The greatest limitation, however proved to be the impact of COVID-19 when all public and group sessions went into lockdown. All of Tracey's good effort was beginning to decline and she took it upon herself to seek advice from a reputable local pool manufacturer.

"All my life I've worked hard from home. I know having my own pool at home I'll work hard. Relying on someone to pick me up, take me to each pool session, and sharing that space with others was doing my head in."

After hearing Tracey's story we decided to do something about it. A mobility pool was custom designed in consultation with medical practitioners, clients, and engineers and was finally installed on her property at home. Having a safe and accessible pool at home provided Tracey with a convenience that led to greater frequency of use, a greater variety of exercise progression due to the custom design, and a sense of autonomy over her program timings.

"I feel like I have gained a sense of control back in my life, from the comfort of home. It was the best decision of my life."

As a result, the Hydrotherapy Pool was established, recruiting professional and experienced staff along with a network of allied health care providers. Our mission was to provide a quality Hydrotherapy pool to assist those that need it the most by understanding their needs.
